RT_19

RT_6

This turf friendly track is used where the work demands long-distance driving and where the work requires the machine to respect the surface (sod & grass).

RT_8 Straight Bar

The most aggressive tread pattern for the Boxer 320 is the straight bar. This track has great results in mud and snow. It is used in application where traction is much more important than the ground left behind.

RT_19

For use when the work demands driving long distances. Low vibration and noise.

Check with your sales representative for more options.
